

Technical Assistance Available to All States

Purpose

Provide all states access to tools and strategies for improving data collection and performance on SPP Indicator 13 and state capacity to provide evidence-based secondary transition education and services.

1. NSTTAC website—www.nstattac.org—Taxonomy for Transition Programming Tools, Indicator 13 Checklist and training materials; information on evidence-based transition practices
2. NSTTAC semi-annual Secondary Transition State Planning Institutes:
 - › Modeling NSTTAC capacity building process
 - › Access to content experts
 - › Access to “intensive” states
 - › Opportunities to develop and update state capacity building plans
3. Opportunity to participate in NSTTAC “intensive” states’ capacity building institutes
4. NSTTAC Notes, a bi-monthly electronic newsletter
5. NSTTAC teleconferences and webinars
6. NSTTAC telephone and electronic consultation
7. NSTTAC participation in state events
8. National or regional events in collaboration with partners, such as NPSO, NDPC-SD, RRCs, IDEA Partnership/NASDSE, PACER, NHSC
9. Linkages with other states’ transition initiatives

Technical Assistance Available to Selected “Intensive” States

Purpose

Assist selected states to implement NSTTAC’s capacity building model within the state.

1. Direct, on-going assistance with implementing NSTTAC capacity building model
2. Assistance to plan and implement annual transition institute and follow-up meetings:
 - › Planning and developing agenda
 - › Identifying content focus
 - › Recruiting content experts
 - › Training team facilitators
 - › Developing Taxonomy “tools” for strategic planning
3. Financial support to provide content experts for professional development and technical assistance
4. Assistance with evaluation activities
5. Assistance with resource development
6. Assistance with serving as “role models” for other states
7. Assistance with developing resources and/or products for sharing with other states (e.g., replication manual, state capacity building model)

Technical Assistance Available to Selected Local Sites in “Intensive” States

Purpose

Assist selected states to work with selected local sites to implement evidence-based transition education and services via NSTTAC’s strategic planning process.

1. Direct, on-going assistance to implement plans developed through the state transition institute to improve evidence-based transition education and services:
 - › Planning and implementing professional development
 - › Planning and implementing curricula
 - › Acquiring materials and resources
 - › Planning and implementing activities for students and families
2. In partnership with the state, financial resources to implement strategic plans
3. Assistance to develop and use Taxonomy tools
4. Assistance with developing evaluation strategies and tools to assess implementation
5. Assistance with developing dissemination materials
